CND Classifications: Y0699 - Prosthesis, Orthotics, other

CE Classification: Class I

GMDN Complete Name: A body-support device
(e.g., back or joint support, shoe
insole, arch support) impregnated
with magnetized metals or
metallic compounds, that is used
to produce a weak magnetic flux field
over the body surface at the site
of application, to potentially provide
comfort or localized temporary relief
of minor aches and pains (e.g., from
muscle soreness/stiffness, arthritis).

Date of Issuance: January 23, 2012

Conclusion of Assessment:

We hereby confirm that the technical construction file and manufacturing inspection and testing processes for above-mentioned equipment comply with the essential safety requirements of EU electromagnetic compatibility 2004/108/EC directive applied codes and standards.
